SAD DEATH OF A LITTLE BOY.

Russell, the little son of Mr. and Mrs. Milton McGimsey, (nee Kate Morris) of Isleton, Sacramento county, passed away in Petaluma, last Saturday, after an illness of over a year. The cause of the child's death was whooping cough, contracted over a year ago in Isleton, where Mr. and Mrs. McGimsey, who formerly resided here, have been living. In the hopes that a change would do the little fellow good, the mother took Russell to the home of her Petaluma relatives a short time ago, but without avail.

Mrs. McGimsey is nearly heart-broken over her loss and has been seriously ill in consequence. She is the daughter of J. B. Morris and the late Catherine Morris and was born and raised in this valley and has the sympathy of the entire community in her grief over the loss of little Russell, whom she idolized.

The remains were brought to this city and interred in the family burial plot in Mountain Cemetery last Sunday.

CITY ENGINEER SMYTH IS DEAD.

Expired at His Home in Santa Rosa After a Week's Illness—Pneumonia Cause of Death.

The news of the sudden and unexpected death of N. V. V. Smyth, City Engineer of Sonoma, at his home in Santa Rosa Thursday morning was a great shock to the many friends of the popular engineer in this city and vicinity.

About a week before his death the deceased contracted pneumonia while doing some surveying near Agua Caliente. He was removed to his home in Santa Rosa and was apparently in a fair way to a speedy recovery when suddenly, in the presence of his wife and a trained nurse, at an early hour Thursday morning, he gasped a few times and expired instantly. The deceased was very popular in Sonoma County. He leaves a wife and two grown daughters to mourn his leave-taking. He was a native of Rock Island, Ill., and aged 52 years.

Nervous? Thin? Pale?

Are you easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood must be thin, your nerves must be weak. You need a strong tonic. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor will endorse these statements. Ask and find out.

If you think constipation is of trifling consequence, just ask your doctor. He will disabuse you of that notion in short order. "Correct it at once!" he will say. Then ask him about Ayer's Pills. A mild liver pill, all vegetable. Made by the J. C. AYER CO., Lowell, Mass.

El Verano Burglar Gets Seven Years.

Wm. Reese, who recently burglarized Paul's Resort at Verano and the Depot Exchange Saloon in El Verano, was sentenced to serve seven years in San Quentin by Judge Seawell last Monday.

Reese, who was an ex-convict, came to this valley early in May and putting up at one of our resorts, started in to ply his trade. He was a well dressed young fellow of good manners and a lady-killer and no one suspected that he was a criminal with a record until he was run to earth by Deputy Sheriff Joe Ryan, from whom he attempted to escape and was shot and wounded in the right leg.

The loot secured by Reese from Paul's Resort was found upon him and after being placed behind the bars he admitted that he had burglarized both places.

Woman's Club Notes

Interest in club work is now focusing on two events—the National Biennial, which meets in San Francisco the last of this month, and then the "Grand California Festival at Sonoma," coming September 6th, 7th, 8th and 9th. All club women are urged to attend as many sessions of the Biennial as possible.

For the Festival the following chairmen of departments have been appointed: Mrs. Emparan, Art and Relics Loan; Floral Exhibit, Mrs. Wicker; American Supper, Mrs. Hunter; German Lunch, Mrs. Stofen; Spanish and Italian Lunch, Mrs. H. Bates and Mrs. Gottenberg; Information Bureau and Catalogues, Mrs. Stearns; Music and Sacred Concert, Mrs. Bateman; Grand Ball, Mrs. Hunter; Ice Cream, Mrs. Wagon; Printing and Advertising, Central Committee.

At the last club meeting Mrs. Burlingame gave a most interesting report of the State Federation meeting in Paso Robles. Next Friday, social day, Mrs. Wagon will present the subject "Manual Training in Schools."

AN ALTERNATING CURRENT SYSTEM.

Another Appropriation by the Southern Pacific to Improve its System

Announcement was made last Wednesday of an appropriation of \$125,000 to cover the cost of installing an alternating current automatic block signal system across the famous Southern Pacific Lucin cut-off. The installation of this alternating current will be necessary, it is thought by the railroad officials, should any part of the present block system become useless because of the short circuiting, which is a possibility on account of the heavy deposits of salt in the vicinity of the Great Salt Lake.

The proposed work calls for the installation of the alternating current system for a distance of twenty miles across the fills in the lake on the east side of the long trestle, and for approximately twenty-four miles on the west side of the trestle. All of the land on the west side of the trestle contains a large percentage of salt which acts as a conductor of electricity and is a probable cause of short circuiting, which would affect the block system.

The power for operating the east end of this new alternating current system will be supplied from the Southern Pacific shops at Ogden. A special power plant at Lemay, Utah, will be built to take care of the west end of the alternating system. At times, during storms on the Great Salt Lake, the water dashes over the fills and in some places the pure salt forms upon the roadbed as much as half an inch in thickness. Work on this new system will begin shortly and it is expected to have it in operation within about eight months.

Hay Market

The condition of the hay market for the week ending June 11th, as reported by Somers & Co., is as follows:

"Receipts of hay during the past week amounted to 1975 tons, comparatively light shipments for this time of year but on the other hand the present demand is exceedingly quiet, consumers fearing the high prices and all claiming that they cannot afford to pay the going prices for their forage supplies. Most consumers who usually fill up their barns at this time of the year are quite strong in their ideas of buying only from hand to mouth. This unquestionably will affect our usual summer trading and will probably have its effect on prices."

"In one or two districts considerable hay has been purchased, although for the most part there has been very little buying in the country, dealers evidently feeling that hay at these prices is a bad investment for speculation and that the high prices will curtail the demand so that the light trade caused thereby will have a depressing effect on prices."

"The cost of hay purchased at the present time and carried until winter or spring will be very great and the effect of high prices works upon the trade in two ways; in the first place they curtail the demand, the market for sales being narrowed down to a limited area. Furthermore high prices extend the source of supplies, it being possible to bring hay from greater distances."

It is quite probable that should hay continue high, that large quantities of hay will be imported from other States, especially the northwest which is reported at present to have the best crop prospects in years.

Woodleaf Sale Stables

The attention of our readers is called to the new adv of the Woodleaf Sale Stables, Boyes Springs. Those stables were recently opened by Mr. Ray E. Button, a very energetic and enterprising young man who thoroughly understands his business. Located in the central part of the valley these stables will be a great accommodation to summer visitors and we bespeak for Mr. Button much success in his enterprise.

Indigestion

causes heartburn, sour stomach, nervousness, nausea, impure blood, and more trouble than many different kinds of diseases. The food you eat ferments in your stomach, and the poisons it forms are absorbed into your whole system, causing many distressing symptoms. At the first sign of indigestion, try

Thedford's Black-Draught

the old, reliable, vegetable liver powder, to quickly cleanse your system from these undesirable poisons.

Mrs. Riley Laramore, of Goodwater, Mo., says: "I suffered for years from dyspepsia and heartburn. Thedford's Black-Draught, in small doses, cured my heartburn in a few days, and now I can eat without distress." Try it.

Two Expensive Banquets.

The costliest meal ever served, according to history, was a supper given by Aelius Verus, one of the most lavish of all the Romans of the latter days, to a dozen guests. The cost was 6,000 sesteria, which would amount to \$242,500. A celebrated feast given by Vitellius, a Roman emperor of those days, to his brother Lucius cost a little more than \$200,000. Suetonius says that the banquet consisted of 2,000 different dishes of fish and 7,000 different fowls, besides other courses.

The Sporting Constable.

"Well," said the constable after some parley with Jinks, "I reckon I know speed when I see speed, and, by gum, I'll bet ye half a dollar ye was goin' faster'n the law allows." "I'll bet you I wasn't," said Jinks. "And there's the money." He paid the constable the half dollar and resumed his journey. "There is somethin' in this sportin' life after all," chuckled the constable as he placed the coin in his pocket.—Exchange.

Made It Longer.

The judge frowned. "You are sentenced to forty-three years at hard labor in the state penitentiary," he said. "That's a Henry James sentence," the intelligent criminal mournfully remarked. And the judge, who was familiar with the length of the eminent novelist's sentences, added seven years more for good measure.—Cleveland Plain Dealer.

Earning His Sleep.

A little city girl was visiting a friend in the suburbs and was much impressed by the morning rush of her hostess' father for a certain train.

"Why does your papa go to town every day?" she at last inquired. "So's to make enough money to sleep out here at night," was the unwittingly shrewd reply.—Chicago
